# Sommer-Symposium des IZN

***“Brain membranes in mental health and disease”***

**Donnerstag, 21. Juni 2018**

Institut für Physiologie und Pathophysiologie, Hörsaal  
Universitätsstr. 17, 91054 Erlangen

- 17:15     **Prof. Dr. Dr. Robert Nitsch**  
*Institute for Translational Neuroscience, University Medical Center Münster*  
Bioactive lipid signaling at central synapses: A role for cortical  
information processing
- 18:00     **Prof. Dr. Rainer Böckmann**  
*Department of Biologie, FAU, Erlangen*  
More than just fat: Protein-lipid interactions in protein  
oligomerization and signalling
- Pause
- 19:00     **PD. Dr. Gerhild van Echten-Deckert**  
*LIMES Institute for Membrane Biology and Lipid Biochemistry, Kekulé-  
Institute, Bonn*  
Sphingosine 1-phosphate metabolism: a double edged sword in  
the brain

Ausklang bei Speis und Trank im Schloßgarten (so Petrus will)
